WORK EXPERIENCE

2017 - Present Application Developer
Exceed IT Services

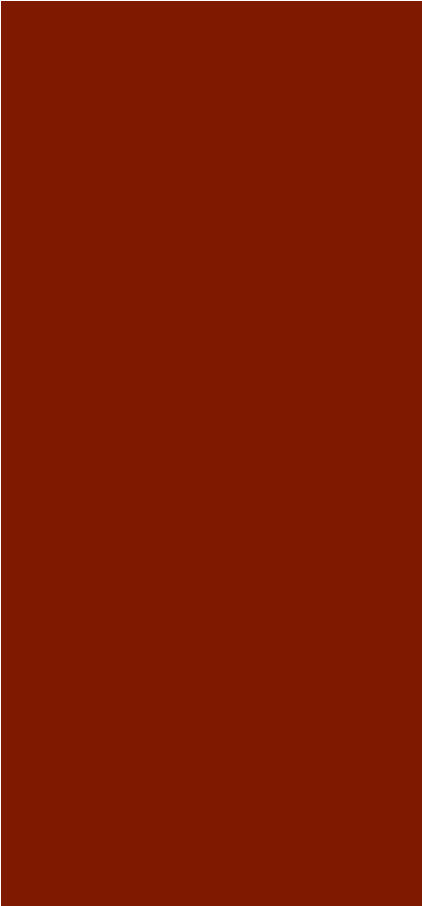

I'm currently working as an outsource employee in the Ministry of Education in Dubai.

- Building hybrid mobile applications using IONIC Framework
- Adding features to existing websites like Teach4UAE
- Building websites and add hardware devices integration to them.
- Building full websites using latest technologies.
- Building mobile apps using ionic framework.
- Adding features and fixing bugs on MBZ website.
- Developing web applications using latest technologies like Angular 6 and .Net Core 2.1.
- Supporting SIS system.
- developing an environment for integration with a payment gateway (EDirham)
- Supporting Swift Assess system.
- Worked on the SSO which is used in the ministry of education.
- Developing tools which will automate time and effort consuming tasks.
- Build, and maintain efficient, reusable, and reliable code
- Ensure the best possible performance, quality, and responsiveness of applications
- Identify bottlenecks and bugs, and devise solutions to mitigate and address these issues

2016 - 2017 Software Developer
Kaizen Plus

I have started with Kaizen plus while I was undergraduate college student and after graduation doing the below:

- Translate application storyboards and use cases into functional

applications

- Design, build, and maintain efficient, reusable, and reliable code
- Integrate data storage solutions
- Ensure the best possible performance, quality, and responsiveness of applications
- Identify bottlenecks and bugs, and devise solutions to mitigate and address these issues
- Help maintain code quality, organization, and automatization
- Mobile Application Development "Hybrid Solutions"

BRIEF PROJECTS

- TLS: Full-stack developer using .net core 2.2 and Angular 7
- T4UAE Mobile App for private tutoring using IONIC 4 (under development)
- MBZ: Web developer using Angular and Sitefinity
- Teach4UAE : Web developer using Angular and ASP.NET
- Electronic Agenda: Web Developer using Angular 6 and .Net Core 2.1
- Ala'araj Factory Attendance System : Mobile application using IONIC 3 with some tracking features and ASP.NET Core Web API
- ADNOC scholarships : Web Developer
- Microsoft Dynamics 365 : built a CRM adapter for generic crud operations
- GPS Tracking : Mobile developer & Web developer

PERSONAL PROJECTS

- GPS tracking system using IONIC and .Net.
- Creating a Movie Guide application.
- Chrome extension which will download mp3 from youtube with only 2 keys.
